It was a noble saying of Henry Clay, an worthy the brightest days of Ancient Orece or Rome, when in reply to a political friend he attered the following memorable rent ment : "Sir, I had rather be right, than I President," It is a sentiment which should ! engraven, both on the tombstone of the d parted statesman, and in the hearts of 'I countrymen forever.

The man who could conceive and giulterance to such a sentiment, will live the memory and gratituite of the natio through all future time, while the men nary, unprincipled and unscrupulous doc rine of the individual, whose name appea at the head of this article "that fraud cons" tutes no earthly objection to the admissio' Kansas," will consign him to the co tempt of every honorable and honest ma long before the grave buries both the mi and his memory in eternal oblivion. To doctrine, that "alt is fair in polities," is we adapted to the Crunken orgies of Tamman Hall, where in modern times, few, except ros dies & office boggars are ever known to co gregate. It is in such a place and in such a assembly, that John Van Biren stands full head and shoulders higher than all oters. He is the Lien of the day and Cap Isaiah Rynders the Jackall. The democra ie party says John "is a leguimate free lov association." Our opinion precisely.

Again : "A true member of the democrat party is a man who undertakes and desigto vote for the democratic ticket." In oth words a true democrat is a man who unde takes and desires to vote for the opinion and fraudulent tickets, manufactured for ti. purpose (fensialining the despotic and u principled measures of a President, who once . Hered the memorable speech, "the if he had a single drop of democratic blood flowing in his veins, he would open them as a let it out "-tickets too, not forced by t ... honest members of the party, but concoched in gambling saloons, bar-rooms and bow ing alleys, by rowdica, blacklegs and offibeggars. Fueilis descensus Averai sa the Poet of classic Rome; and never w. there presented a stronger proof of its mi than is being exhibited in the career John Van Huren. At first, in the outset his political career, he occupied high, honor ble and patriotic ground. But he so found himself either unfitted for such a pa sition, or the position unsuited to his pri ciples. Hence his continued downward de scent, till he has at last reached the lowe point of a degraded politician—that poi when without motive, he volunteers to pretrate and crush out the rights of the pc ple and the claims of humanity: ambitio only to make a pun, or raise a laugh. Alt John ! you may find out when it is too late. that " honesty is the best policy."

Biographical Sketch of the late Com-modore Mathew C. Perry.

On Friday Moroling last we announced the decease of Com. Perry, and it was our intention to give on Saturday, a somewhat extended biographical notice of him, but other engagements have prevented us from doing so, until to day, when we find our purpose anticipated by the Providence Telegraph, and consequently clip the following concise and just tribute to the bonor of the dead from that enterprising little sheet :

"Commodora Mathew C. Perry was a na tive of South Kingston, in this State. His family have all been engaged in the public service; his father commanded the frigate Gen. Greene, and his brothers filled various stations in the army. Oliver Hazard Perry became the most distinguished of the brothers, having been engaged in the battle of Lake Eric during the last war with Great Britian, and by his invincible provess crowned the struggle with a glorious vic-

The subject of our sketch entered the navy as midshipman in the year 1809, and subsequently by his talents and energy won a reputation which kept him in active service. On receiving his mirishipman's warrant, he was ordered to the schooner Revenge, to which he was attached eight months and fifteen days. He was next ordered to the frigate President, in which he served three years and two months. The 3d Nov. 1813, he was transferred to the frigate Unifed States, when he was ngain ordered to the President, then communical by the gailant Decatur, under whom he served eight months. On the 18th of Dec. 1814, he was ordered to the brig Chippewar where he served eleven months; he was then transferred to the Navy Yard, at Brooklyn, where he held the position of Lieutenant for one year and ten months .-The service in which he had been engaged up to this time had been active, embracing as it did the entire period of the war with Great Britain. The duties were ardnaus, but they were discharged with intrepidity. and well fitted bins for his latter and more brilliant achievements. He joined the ship Cyane in August, 1819, and served on board that vessed one year and seven months. He was honored with his first command in May, 1821, the schooner Shark being the vessel which was entrusted to him as Lieutenant commanding, in which capacity he served two years and four months. He next served two years and nine months on hourd the ship-of-the-line North Carolina, as First Licutenant. In 1830 he was promoted to the rank of Master Commandant and assumed the command of the ship Concord, wherein he cruised two years and seven months, for the most part in the Mediterranean Sea. He returned home in January, 1833 and was transferred to the Brooklyn Navy Yard .-He remained there four years and two months. On the 9th of February, 1837 he was promoted to the rank of Captain and took command of the Steamer Fullon, cruising a few months on the coast of the United States. In 1840 he was ordered to the steamer Missouri, and served one year and three months. In June 1841 Captain Perty was ugain put in command of the Brooklyn Navy Yard, and remained there until the treaty for the suppression of the Slave Trade made it necessary in 1813 to dispatch a squadron to the coast of Africa, of which he was placed in command. He remained on the African coast until 1816, when he was appointed to superintend the construction of government docks and steam ers. In March 1817 he received the command of the home squadron and served with distinction on the coast of Mexico during our war with that power. In 1818 Commodore Perry was detached from the home squadron and appointed general superintendant of the construction of the ocean steamer squadron. He continued in this position until March 1852, when he was appointed to the command of the Japan Expedition. The result justified the

THE LIVER INVIGORATOR.

TREPARED BY DR. SANFORD.

Compounded Entirely from Guns,
To One of the best Purgative and Liver Medicines now before the public, that acts as a Cathartic, easier, midder, and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject its morbid matter, then on the stomach and bowds to carry off that matter, thus accomplishing two purposes effectually, without any of the painful frelings experienced in the operations of most Cathartics. It strengthens the system at the rame time that it purges it; and when taken drily in moderate doses, will strengthen and build it up with unusual rapidity.

The following remedies are offered to the public as the best most perfect, which medical science can afford. Aven's Cathaerte Pills have been prepared with the utmost skill which the medical profusion of this age possesses, and their effects show they have vitues which surpass any combination of medicines hitherto known.

Other preparations do mare or less good i but this cures such dangerous complaints, so quick and so surely, as to prove an efficacy and a power to upron disease beyond any thing which men have known before. By removing the obstructions of the internal organs and stimulating them into healthy action, they removate the fountains of life and vigor—health courses anew through the body, and the sick man is nell again. They are adapted to disease, and disease only, for when taken by one in health they produce but little effect. This is the perfection of medicine. It is antaque is it to disease, and no more. Tender cliniters may take them with impunity. If they are sick they will care them, if they are well they will do them no harm.

We them to some patient who has been prostrated with histors complaint; see his lent, to tender with strength again; see his long lost appetite return; see his clammy features blossom into health. Give them to some sufferer whose foul blood has brast out in seconda till his skin is covered with soice; who stands, or sits, or lies in anguish. He has been dead for his body and he sereches with pairs; he take heen dream-cel inside and out with every potion which ingenity could suggest. Give then to him whose agey humors have planted theumatism in his joints and bones; more him, and he sereches with pairs; he tao has been saaked through every muscle of his body with liniments and alwest; give him these Pills to purify his blood; they may not core him, for, alpa? there are cases which no mortal power can reach; but mark, he walks with crutches now, and now he walks alone; they have meet him, and the distressing, done, and kindeed complaints all arise from the deranacement wh

These symptoms, if allowed to go on—which this mellicine invariably removes—noon follows Loss of Power, Patuity, and Epileptio Firs—in one o' which the patient may expire. Who cannot say that these excesses are not frequently followed by those directal diseases of fusionity and Consumption! The records of the Intana Asylums, and the melancholy deaths by Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears.
